Dear Unit Owners/Tenants;

Re: Fiberon Deck Maintenance

Product: Fiberon, ProTect Advantage, Gray Birch, 16 ft. Groove

Please familiarize yourself with the attached Fiberon Deck Maintenance Information for your new deck which was installed in 2018.

Some Useful Pointers:

- warm soapy water (i.e. Dawn) is probably the best to clean the deck.
- If you require more information about your deck, you may go to fiberondecking.com or phone 1-800-573-8841.
- Please NOTE that improper use of a power washer can VOID your warranty.

Thanking you in advance for your attention to this matter.
