From: Eversyde on the Park Board of Directors

Re: Contractors on Eaves Troughs and Downspouts

Starting Nov 1st and for the next two weeks, please know that there will be contractors roaming the complex examining and preparing a quote on our eaves troughs and downspouts.

We have some serious drainage concerns and we like to reduce the amount of rain water, and snow melt going into the backyards, as well as fix extensions and upper downspouts which affect our siding.

We are hoping to get this work done in the late spring early summer of 2020 depending on the quotes.

Thanks for your cooperation

Thank you.
