

EVERSYDE ON THE PARK

Condominium Corporation Number 0512392

WINTER DE-ICER & SHOVEL

Eversyde on the Park contracts Bugaboo Landscaping for our snow removal and site maintenance requirements during the winter months. They are responsible to clear our sidewalks, walkways, entrances, and steps within 24 hours of the end of each snowfall. During heavy / continuous snowfall events, they will perform priority clearing to ensure each resident is able to enter and exit their units and will return within 24 hours of the priority clearing to provide edge-to-edge clearing of all contracted surfaces, including applications of ice melting products.

It is strongly recommended during the winter months that every unit have a supply of their own de-icing product and shovel on hand so that members of your household can clear a path and apply your ice melting product to be able to safely leave your unit at any time, and during the periods between Bugaboo site visits.

Regards,

Eversyde Board
